

PRESTAN EXPANDS SERIES 2000 OFFERING TO INCLUDE A FULL LINEUP OF CPR TRAINING MANIKINS

Now available in Adult, PRO+, Female, Child and Infant models for a complete training solution.

SOLON, OHIO, April 16th, 2025 – In a cardiac emergency, every second matters, and being able to perform high-quality CPR can mean the difference between life and death. Effective CPR training must reflect the diverse realities of those who may require life-saving care. With this in mind, PRESTAN announces the launch of its Series 2000 Complete Offering, featuring Adult, PRO+, Female, Child and Infant models. These manikins provide the most advanced feedback available today, helping instructors accurately teach students to perform CPR on any individual in need.

Realistic training on a wide variety of manikins helps students develop the skills necessary to perform CPR with precision and confidence. Ed Feil, Vice President of Global Sales & Marketing at PRESTAN, emphasized the company's mission, "As PRESTAN continues to expand internationally, our goal is to ensure that high-quality CPR training is accessible to healthcare professionals, first responders, and everyday individuals around the world. The Series 2000 Complete Offering delivers a comprehensive, data-driven training solution—empowering people worldwide to act with confidence when it matters most."

The Series 2000's advanced design revolutionizes CPR training by providing real-time feedback, giving students and instructors immediate insights into critical CPR feedback metrics such as compression rate, depth, recoil, ventilation, hands-off time, and chest compression fraction. The newly redesigned PRESTAN CPR Feedback app collects detailed, high-quality data on a student's performance, helping them improve their technique and build the confidence needed to take life-saving action in a real emergency.

Key Features of the PRESTAN Series 2000 Complete Offering:

- **Diverse Manikin Selection:** Available in Adult, PRO+, Female, Child and Infant models in medium and dark skin tones, with single or 4-pack options.
- **Dual-Purpose Training Solution:** Features both traditional CPR feedback lights and advanced digital feedback via the PRESTAN CPR Feedback App.
- **Enhanced Instructor Support:** Monitor up to six students simultaneously with detailed performance tracking and reporting.
- **Industry-Compliance:** Meets the latest AHA Integrated Feedback Directive and Heart & Stroke Foundation of Canada's February 2021 Use of Feedback Devices in Resuscitation Training Courses Policy.
- **Made in the USA:** Manufactured to the highest standards and backed by a three-year limited warranty for reliability and durability.

The PRESTAN Series 2000 Complete Offering is available for order through your local distributor.
